...Jitney Man's Lament.

He was a jitney man and he was making strenuous efforts to express himself about the Emmitsburg road and declared the situation was absolutely hopeless unless he could prefix little d— and big D— before every noun and adjective that might fit exact conditions. It was worse than d— rough, it was d— outrageous, d— awful, d— horrible. It was the d—est roughest, bump, bump, ridgety ridge, hole upon hole road any one ever went faring over. Indeed it was D— disgraceful. Now whatever a jitney man could have meant by d— or D— was surely something beyond description.

It isn't the jitney man's fault even if he has had a hand in tearing up the road. The heavy trucks with bigger wheels and heavier loads have done more of the tearing up than any other service. It is intimated that the Government expects those responsible for the roads to keep them up and in that event from the borough line southward it is up to the Gettysburg Battlefield Park Commission to maintain the road. The Commission can get or gather all the materials right here except the tarriva and on good authority it is said the Government will give consent to the release of all tarriva needed for the building of roads near camps or over which army service will travel. So please build the Emmitsburg road.

How about the town streets? Oh, that's another story!

Black Walnut Wanted.

The Government has been the indirect purchaser of great quantities of black walnut timber. Charles S. Mumper has been hauling many truck loads to this place for shipment. The wood is wanted for gun stocks and airplane propellers. The wood is wanted wherever it can be obtained and the prices are high, much higher than the wood has been bringing for some time. Small amounts can be sold with other lots in the same neighborhood, but if the selling is delayed until all in one vicinity has been bought, the chances for a sale will likely depend upon having enough to make a carload and the minimum carload is about 3000 feet. Depending upon size and quality prices have been ranging from 50 to \$150 per thousand board feet.

Given Diplomas at Gettysburg.

On the Gettysburg College Campus last Sunday afternoon six soldiers in the Tank Corps received their diplomas from Dr. Charles W. Flint, president of Cornell College, Mt. Vernon, Iowa, at which school the soldiers were students before enlisting in the army. Dr. J. A. Singmaster opened the exercises with prayer and Dr. W. A. Granville made a short address. After several patriotic songs Dr. Flint delivered the diplomas to the young men.

Under the terms of the decree, \$10,000 of the alimony is to be paid immediately, \$10,000 within eight months, another \$10,000 within fourteen months and the remainder within twenty months. As each marriage, becomes of age or leaves its mother, its share of the \$4000 shall be reduced to \$700. War Spirit for Home Communities.

The war spirit in Arendtsville is being double duty, supporting the nation and the home community. A drive to collect money and goods for the war effort is being carried on here. The Arendtsville Office, by one of our citizens agrees to purchase a War Savings Stamp at outlay of \$200 and donate the same to Greenmount Cemetery Association of Arendtsville. Three other citizens agree to purchase Liberty Bonds and donate to the same Cemetery and the latter association agrees to keep in proper and respectable condition the cemetery lots of the parties.

Arendtsville can not be the only community in the county with citizens desirous of donating their war investment to the good of the community. These examples should have many followers.

Doing Big Work for Uncle Sam.

Captain H. Milnor Rupp, of York, well known to many of our people, and a brother of Dan Rupp, a college student and member of the firm of Rupp & Enterline, conducting a men's furnishing store in this place, is the head of the reclamation and conservation department of Camp Meade division and the man who has saved the United States Government more than \$2,000,000 in the last ten months, has been transferred to Camp Joseph E. Johnston, Jacksonville, Fla., where he will be head of the same department at that camp.

It is rumored that Capt. Rupp will be sent to France in the near future where he will be given a big job with the reclamation department of the American army in that country and where he will be able to save millions of more dollars for the country. Capt. Rupp is the man who started the campaign of seeing that the soldiers put old bottles, rags, bones, fat, paper, tin and other refuse in trash cans outside their barracks. From these things he either received in return cash from various junk dealers or had the refuse converted into useful things. For instance from the fat he got by-products which are used in the manufacture of ammunition. He even made use of dead horses, converting their bones into fertilizer and using their hair for mattresses, for plaster, etc. He had 65,000 pairs of old shoes, left behind by the Seventy-ninth Division, made new again, and he did the same thing with thousands of hats and uniforms. His work has been one of the most extraordinary things developed in this war, showing American ingenuity and efficiency at its best.

Last week she received check covering pension with full back pay from the death of Mr. Lower on Dec. 31. On the day of Mr. Lower's death a check came to him for his pension which had to be returned and the amount of this check was also sent Mrs. Lower.

Life Saved but Arm Lost.

Emory Yengst, of Tyrone township, owes his life to the prompt work of Reynolds Myers. Mr. Yengst was dressing a four inch belt on an idle pulley when he lost his balance and threw the belt on an active pulley and was being drawn into the machinery. At once Reynolds Myers saw the situation and cut the belt but not before the right arm of Mr. Yengst had been horribly lacerated and crushed. He was rushed to the Carlisle hospital where the arm was amputated above the elbow.

Shortage of Teachers.

There is going to be a shortage of teachers for the public schools this year. This shortage is going to be felt in the consolidation of schools and plainly there will be one less school in the townships of Butler, Franklin and Huntingdon. This shortage is going to result in enlisting high school graduates of this year, married teachers and preachers, as well as the need is great, and such supplies are unavailable they will be drafted for the work. This shortage is not only in this county but in all adjoining counties and throughout the country and will likely prevail during the war.

Hard Coal Allowance.

The fuel situation as far as it has developed locally is that 25,000 tons of hard coal is the allowance for Adams county during the coming winter, and of this total Gettysburg will receive 7,000 tons.

A test takes only a few minutes.

save you later from the inconvenience of a motor that refuses to turn over—from lights that are dim when they should be brilliant—from actual damage to your battery.

REAR ADMIRAL RODMAN.

Knighted on Board Flagship of the Grand Fleet.

When President Wilson was looking for "live wires" for the greater navy Capt. Hugh Rodman was one of a number of men found to fill the specifications. Rodman was commander of the U. S. S. New York in 1915. He was made a rear admiral a year ago last June. Since being honored by President Wilson he has been made a knight commander of the Order of the Bath, King George knighting him on board the flagship of the grand fleet.

YANKEES CROSS OUR COURSE

Rear Guard Forces of the Crown Prince Smashed.

Bulwark of General Ludendorff's Line to North of Chateau-Thierry Is in Hands of Victorious Allies.

Paris.—American and French troops fought their way across the Ourcq river and entered Fere-en-Tardenois, the great German base and pivot of the enemy's line on the western side of the Soissons-Marne-Rheims pocket. Cavalry led the way, while large numbers of tanks gave the necessary protection to the infantry.

German are retreating with increased speed toward the Vesle river, 18 to 20 miles north of the Marne, where Ludendorff intends to make a stand, it is believed.

The line along the greater part of the bottom of the Soissons-Rheims salient has been pushed forward in some places as much as five miles.

The Germans are bringing into play their artillery in force to check the plunges of the Franco-American troops. The Americans have played a brilliant part in the advance, which included the occupation of Serzy, on the north bank of the river, and a number of small villages.

The Germans offered bitter resistance, but not to compare with that which began later for the retention of the higher ground further north of the river. There they supplemented their defense with artillery fire reaching over the American front lines to the supports, the volume of fire at times attaining enormous proportions.

Unwaveringly the Americans held their ground and even advanced slightly, while the French on their sectors to the right and left resisted as steadily against the vicious efforts of the Germans.

COAL OUTPUT NEAR RECORD.

Production Behind Last Year, But Is Gradually Increasing.

Washington.—Though the coal production of the United States is still hugging the high point, the production to date for the coal year is 8,912,500 tons behind the estimate requirements, as figured by the fuel administration.

The production for the week ended July 29 in the bituminous fields was 12,000,000 tons. The high week was that ending July 17, with 12,770,000 net tons. For the six weeks, extending the week ending July 4, when there were but five million tons, production has averaged 12,000,000 tons a week.

HOTELS MAY USE WHEAT.

Hoover Frees Public Places From Voluntary Ban.

Washington.—Public places were given the go-ahead to use wheat flour for the making of bread and other foodstuffs. The voluntary ban on the use of wheat flour in hotels, restaurants, and other public places was lifted by the food administration.

EXCESS TAX ON INCOMES.

Pre-war Profits of Corporations Entirely Ignored.

Washington.—The War and Means Committee practically adopted for the new revenue bill a schedule of excess profits taxes estimated to yield \$1,600,000,000 during the next fiscal year. It was decided also that in levying these taxes pre-war profits of the corporations will be entirely ignored. The revenue will be collected solely upon the net income for the taxable year.

FIGHT TO ESCAPE
GEN. FOCH'S TRAP

Americans Alone Have Inflicted 50,000 Casualties in Fighting Since Drive Was Smashed.

ENTIRE SALIENT UNDER FIRE.

British at Neck of Bottle Near Rheims Drive Forward a Mile and a Half, While Franco-Americans Gain Two Miles.

Paris.—The plight of the Crown Prince's 300,000 German soldiers hemmed in the cramped Marne salient suddenly became critical as a result. Allied blows brought the corridor through which the Germans must retreat down to a scant 20 miles at its narrowest point. Allied guns now command every foot of the area of retreat.

Associated Press dispatches from London reported that Franco-British troops west of Rheims had driven forward one and one-half miles on a three mile front and captured the towns of Gueux and Mery-Premecy.

The Franco-Americans on the southwestern side of the receding salient smashed forward in a new attack for guns of two miles at certain points along a 15 mile front.

The British blow on the foe's left flank was struck at the critical neck of the salient, which has been narrowed down to 20 miles. The allied guns now sweep the whole of the German positions inside the great pocket.

The allies threw fresh reserves into the battle north of the Marne, harassing the retreating German line and breaking up the enemy's desperate rearguard counter thrusts intended to save his army from disaster.

The Franco-Americans pushed forward through the Riz and Fere forests, driving the Germans to the village of Beauverdes, within three miles of the German concentration point, Fere-en-Tardenois.

The Pall Mall Gazette says it is reported that the armies of the German Crown Prince have been placed in a position from which extrication seems to be impossible.

It is estimated unofficially that the enemy losses are more than 200,000, of which 50,000 were inflicted by the Americans.

U. S. TROOPS IN ITALY.

Two More Army Corps Organized in France.

Washington.—Trained combatant American troops from France have begun to arrive at Italy. General March announced at his regular weekly conference with newspaper men. Neither the number nor the place where they are to be used has been communicated to the war department, the general said.

Two additional American army corps have been organized in France, General March announced. They are the Fourth and Fifth, commanded by Maj. Gens. George W. Reed and Omar Bundy, respectively.

Summing up the battle situation on the Aisne-Marne front, General March said that the allied drive had resulted, according to official advices, in forcing the Germans back 11 miles further from Paris and shortening the allied line by 10 miles.

UKRAINE PEASANTS IN REVOLT.

Seventy-five Thousand, Well Armed, Marching Against Germans.

London.—A peasant rebellion has broken out in the Ukraine, according to information received here. Seventy-five thousand peasants, fairly efficient troops, with their officers and instructors, are advancing against the German detachments of whom have withdrawn before the hostile advance, retreating to Kiev. The peasants are well armed.

PITH OF THE
WAR NEWS

Major General Brereton, controller-general of equipment of the British army, has been appointed to America to study the American system of production and distribution of war materials.

The War and Means Committee issued an order to the effect that the Austro-Hungarian army is to be reduced to 1,000,000 men by the end of the year.

German troops are reported to be forming a line of two to three miles in length, extending from the Marne to the Aisne.

American guns are reported at Fere-en-Tardenois and playing havoc with the enemy's transport system for the lower half of the Marne salient on the western front.

French announce the recapture of Villers-Morillon and the taking of Oulchy-le-Chateau. The latter, on the line of the Ourcq, brings them to the plateau overlooking Fere-en-Tardenois. Several hundred prisoners were captured. The French completely restored their line in the Champagne. The allies southwest of Rheims have lost Mery, but are holding firm elsewhere.

Hon. Andrew R. Brodbeck Candidate for Congress

Extract From Mr. Root's Address
at the Annual Meeting of the
National Security League
Held May 8th, 1918.

"We are going to elect a Congress this coming fall. There is one great single predominant qualification for an election to that Congress, and that is a loyal heart. (Applause).

"I don't care whether a man is a Democrat or a Republican or a Progressive or a Socialist or a Prohibitionist, or whatnot, he must have a loyal heart, or it is treason to send him to Congress. (Applause). There are probably from twenty to thirty Congressional districts in this country where there is a loyal majority but where there is so large a disloyal minority that a division of the loyal majority may let a pro-German in. In every one of those districts. Democrats and Republicans and all loyal men should get together, and agree upon the loyal man of one party or the other who is the surest to carry the district, and all unite on him without regard to party. (Applause).

"Any man who would not accept the idea and follow it, I would want to live a hundred years to vote and work against. (Applause). Human nature has not changed. There are going to be parties, going to be politics hereafter; but now they are subordinate, they are unimportant. The one thing only is to win the war, and put men in Congress who will represent the driving power of the American people; the driving power that is behind Congress, that is behind the Administration, and that, God grant, may make itself felt behind the men who are puttering over contracts and lingering on the road to victory. (Applause).

"The great thing is to make Germany feel that the hundred millions of America are going, as one man, to beat them (applause), to make every American feel that all the rest of the hundred millions are with him in his mightiest efforts to beat the German. (Applause)."

Reflect. Apply the words of this great American to the situation in this Congressional District. The man to elect without regard to party is the man who has been representing the driving power of the American people — **Brodbeck**

Baldness Conquered**RECIPE MAILED FREE**

A veteran business man, who was almost completely bald and had tried numerous tonics, lotions, shampoos, etc., without benefit, came across, while on a journey, an Indians' recipe by which he grew a complete crop of healthy, luxuriant hair that he now possesses.

Others—men and women—have reported remarkable hair growth by the same method. Whoever wishes the recipe may obtain it free by writing to John Hart Brittain, BA-223, Station F, New York, N. Y. Or obtain a box of the ointment, Kotniko, made according to the perfected recipe, at the drug store, ready for use.

Indians' Secret of Hair Growth

In a vast number of cases, when hair falls out, the roots are not dead, but remain imbedded in the scalp, alive, like seeds or bulbs, needing only fertility. The usual alkaline shampoos, alcoholized hair tonics, etc., are of no avail in such cases. The Indians' ointment nourishes the hair and stimulates the growth.

Kotniko fertilizes the scalp and induces hair growth in every case possible; wonderful results reported. For men's, women's and children's hair. If you are bald, or losing hair, or have dandruff, you should try Kotniko. It is a pleasure to observe the starting of new hair and its steady increase until a prolific growth supersedes thin hair or baldness. Cut out this notice; show to others who want beautiful hair. The recipe is free. This is genuine.

WORLD'S NEWS IN CONDENSED FORM

CHICAGO.—Strike of seamen and firemen on the Great Lakes is called off after Edward N. Hurley orders the Lakes Carriers Association to remedy all grievances complained of.

NEW YORK.—German propagandists just before America declared war had arrangements made to spend millions in influencing American public opinion because they believed that the war would end June, 1917.

WASHINGTON.—The Signal Corps sends out a call for 60 lieutenants, as many sergeants and many privates to help in compiling a pictorial history of the war.

NEW YORK.—William Bayard Hale admitted having been the adviser of Hun propagandists in America. George Sylvester Viereck, it was discovered, had been in communication with Germany since America declared war.

WASHINGTON.—Interpretation of the War Labor Board's award in the paper mill strikers case holds the men are not entitled to the 10 per cent. bonus as part of the award, but that the payment, being a voluntary contribution by the employers, who announced it would be continued until the men were notified, should be made for the months of May and June.

AUSTRIA FACES FAMINE

Hungary Accused of Betrayal for Refusing to Divide.

Greatest Shortage in History of Dual Monarchy Enrages Civilians. Deaths Increasing.

Washington.—Austria-Hungary faces the greatest food shortage in the history of the dual monarchy, according to official figures which were placed before the military authorities here.

Although the reconvening of the parliament at Vienna has given opportunity for the government to renew its pledges of new food supplies, information reaching this country by way of Switzerland makes it plain that only by force of arms will the people be restrained from open rioting in the larger centers.

The problem was taken up at the recent general conference held at field headquarters by the Kaiser. It was hoped that definite assurances that food supplies would be sent into Austria from Russia would follow the meeting. No announcement has been made, however, and Socialist leaders are again urging workmen to inaugurate food strikes.

The Arbeiter Zeitung of Vienna reports that there has been little bread in Prague since July 7. On two days of last week there was a shortage of 21,000 loaves of bread in the city's rations. Although the bread allowances have been greatly reduced. Riots re-

sulted in the bakery districts. At Weinberg and Zinkow no bread was issued for several days, and anger and despair are evident among the civil populations.

As a result of the lack of food the death rate is mounting, the mortality among children being very high. In Austria the feeling is general that Hungary has betrayed the nation by refusing to divide the scant reserve stores.

BASEBALL LEAVES UNTIL SEPT. 1.

Mears World's Series Will Have to Be Played Before That Date.

Washington.—Baseball lives until September 1.

This was the ruling of Secretary of War Baker in his decision on the "work or fight" clause as it affects the national game. The decision met the baseball managers' hope.

They had asked for a modification which would have permitted all the clubs in the major league to have completed the present season through "non-molestation" of players of draft age.

Secretary Baker's ruling means that the world's series this year will have to be played before September 1.

His Car.

"And what is that little building over there?" asked the visitor to Tompy's place.

"That? Oh, my wife calls that the garage," said Tompy.

"Oh—what is your car?" asked the visitor.

"Oh, that's a mirage," said Tompy. —Harper's Weekly.

1200 New York Doctors Fighting Poison Gas.

Do you know that you folks at home as well as the brave boys "over there" are menaced by "poison gas"—the insidious kind that steals away health and the joy of living, in the perpetually recurring disturbances resulting from a gassy, sour stomach.

1200 New York physicians regularly prescribe **JOHN'S DIGESTIVE TABLETS** as the most perfect form of relief known for these stomach disorders. The **TABLETS** are highly beneficial for gastric and intestinal indigestion, heartburn, acid or sour stomach, flatulence and gastric catarrh. They sure do vanish that poison gas which is the basis of most stomach ailments, as well as banish bad breath which usually heralds that gas-filled stomach.

Get the **TABLETS** at your drug store. They insure quick, lasting relief by taking three to six dissolved in a glass of water or chewed before swallowing. Have **JOHN'S DIGESTIVE TABLETS** handy in the dining room for chronic cases of gastric or intestinal indigestion—as one or two **TABLETS** should be taken before each meal.
